Your Comments: As a river guide of the area please I urge you to heed the recommendations of the Willamette Riverkeepers in regards to the Superfund clean up of the Portland Harbor. Restoration from the profiteering desecration of our vital waterways will prove to be the driving point of any hope for the salvation of our climate. Please make every effort to empower the natural balance of our world and with hope the future of our planet may be vivacious, instead of toxic. What hope you fruit from life; flower or disease?
